

To all schools

THE NATIONAL EXECUTIVE of the Botswana Federation of Secondary School Teachers (BOFESETE) is pleased to welcome Mr. Henryk Antochow to the headquarters of BOFESETE. Mr. Antochow is a Polish national who is on attachment to BOFESETE under AISEC programme.

AISEC is an international students exchange programme. Mr Antochow's role in BOFESETE would be to manage and direct the Information and Communications Technology Strategy of the Federation. In a nutshell Henryk is the BOFESETE ICT specialist responsible for maintenance of the office network, management of the planned Internet Cafe, training of office staff, executive committee members and the general membership, advice of members purchasing computers, helping to sort out some members computer problems, maintenance of the BOFESETE Web site (www.bofesete.org.bw)

Henryk is supremely qualified for this role. He holds a master of computer science from the Technical University of Czestochowa, with majors in computer networks and programming. He has already networked the computers in the BOFESETE office and has tremendously improved the computing skills of office staff. Members who wish to purchase computers through the BOFESETE scheme can first get technical advice from him and can also help with such matters as setup, software installation and any other technical issues regarding ICT. He is a computer enthusiast. There are many other projects that are lined up for members which Henryk will help facilitate.

Henryk is on attachment for a period of one year (February 2005). BOFESETE invites members to take full advantage of Henryk and

utilize his rare skills. The Federation is currently working on raising funds to develop a computer resource centre (cyber cafe) for members.
